The 250SX for 2003 is a completely redesigned bike, from the engine to the frame. The majority of the technical innovations came on the heels of the 250 GPs and were immediately implemented into the production bike series for the year 2003. Like we said, the biggest reason for the new motor was to improve the handling.

The Pirelli tyres for the KTM 450 EXC Racing (> 2003) are a perfect marriage of technology and innovation, made with a special tread compound that can tackle any weather condition without hesitation. The tread pattern of the tyre is designed to ensure maximum grip, both straight and cornering, while reducing hydroplaning on wet roads, braking distances, and fuel consumption.
