Each year, Saskatchewan Agriculture makes available the Crop Planning Guide to help producers estimate the costs of producing various crops. The Guide does not represent actual provincial average cost of production figures.

CROP PLANNING GUIDE 2019 - Microsoft

Saskatchewan Crop Insurance Corporation (SCIC) is a provincial Treasury Board Crown Corporation under the portfolio of the Minister of Agriculture. SCIC is responsible for administering three programs: Crop Insurance (AgrilInsurance), AgriStability (beginning with the 2009 program year), and Wildlife Damage Compensation Program.

Saskatchewan Crop Insurance Corporation | SCIC

- Crop Rotation: Rotate crop types [e.g. cereal (wheat)/ oilseed/cereal(barley)/pulse] to reduce the build-up of disease inoculum in crop residue. If at all possible, do not seed the same crop in back to back years. When a short rotation is absolutely necessary, seed in the second year a variety that is more resistant to an anticipated disease
